

Innov-is 100 Prime Edition

Achieve professional sewing results quickly and easily.

- Automatic thread cutter
- 30 utility decorative stitches
- Automatic needle threader
- Quick-set bobbin
- Backlit LCD screen

Innov-is 100

Introducing the new feature-packed Innov-is 100 Prime Edition, sewing machine from Brother. With the advanced auto needle threader and a variety of 30 utility and decorative stitches.

You can create professional looking fashion or homeware projects quickly and easily.

Simple functions allow you to save your favourite or more frequently used stitches or create perfectly uniform button holes with the automatic one step button hole function.

Direct stitch selection

Quickly and simply select the required stitch from the keypad.

Quick and easy needle threading

Simply follow the thread guide, press the button and the needle is threaded.

Quick-set bobbin

Simply drop in the bobbin and you are ready to sew.

Clarity

The clear backlit LCD screen displays useful sewing information such as stitch number, stitch length, width settings and type of presser foot required.

Save your favourite settings for frequently used stitches. Settings include stitch width or length, needle position, auto reverse/reinforcement and automatic thread cutter.

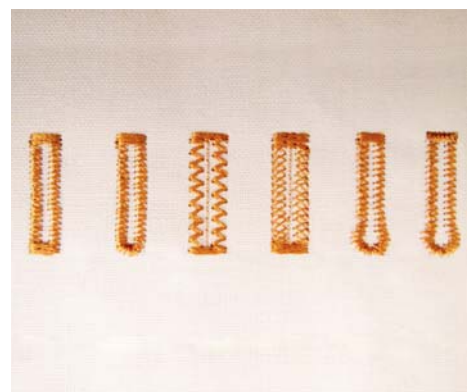

LED lighting

Extra-bright triple LED sewing light effectively lights your stitching, making your projects clearer to see.

Automatic thread cutter

Cut the thread with just the touch of a button or set to automatically cut at the end of stitching.

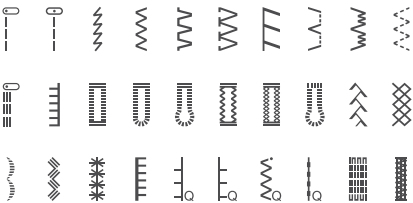

Automatic button hole — 6 styles

Automatic one-step button hole function enables you to create perfectly uniform button holes. Choose from six different button hole styles.

Features at a glance

- **30 Stitches** – a variety of utility and decorative stitches.
- 
- **Automatic button hole** – 6 styles of one step automatic button hole.
 - **Backlit LCD display** – clearly shows sewing information.
 - **Advance automatic needle threader** – Simply follow the thread guide and press the lever to thread the needle.
 - **LED sewing light** – triple LED sewing lights.
 - **7 point feed** – ensures smooth fabric feeding and superior stitch quality.
 - **Programmable needle drop** – select needle position (up or down) when the machine stops.

- **Needle drop selection** – left, middle, right.
- **Quick-set bobbin** – drop in a full bobbin and you are ready to sew.
- **Quick cut bobbin winding system**
- **Memorise stitch settings**
- **Presser foot levelling button** – smooth consistent stitching over changing fabric thicknesses.
- **Automatic reverse/reinforcement stitch** – creates professional beginning and end of stitching line.
- **Slide speed control** – adjusts speed from slow to fast.
- **Start/Stop button**
- **Snap-on presser feet** – makes changing presser feet quick and simple.
- **Free arm** – for sleeves, bags and cylindrical projects.
- **Hard cover** – to protect the machine when not in use.
